

PURE SILVER FROM DEPTHS OF BELMONT

IT IS IN A VEIN THE WIDTH OF
A MAN'S HAND ON THE
1200 LEVEL OF MINE.

Mining pure metallic silver in a vein the width of a man's hand is one of the wonders of the 1200-foot level of the Tonopah Belmont mine, according to H. C. Jones of Tonopah, Nev., delegate from Nevada to the thirteenth American Mining Congress, who is in Salt Lake to confer with President John Dorn, relative to taking charge of organizing the Nevada chapter. Mr. Jones is also looking up statistics in Utah's new oil field down in San Juan for oil men in Ohio, who expect to purchase oil lands. He says so far he has found nothing but encouragement relative to the San Juan field.

"The mining situation in Nevada is looking much better throughout the state," said Mr. Jones at the Wilson last evening, "but more particularly in Tonopah. That camp has settled down to a deep mining proposition, and it is a formation which appeals to mining men."

"Tonopah is covered with a great andesite flow, which is broken through in only one place. It was this ore bearing outcrop that attracted the original locators. This andesite cap has a depth of 28,000 feet. On the east it is 1050 feet; on the west 800 feet thick, while in other places the thickness is unknown. But wherever this andesite capping is penetrated the ore bearing porphyry is found. For instance, there is the Belmont ledge. It is the biggest body of ore ever discovered in the state. It is 1000 feet east and west and 700 feet wide, and ten to twelve feet thick. It will average \$35 milling values, while the high grade streaks will run \$75."

"Diamond drilling costs from \$2.60 to as high as \$22 a foot in prospecting in this capping, but it means a mine when it has been penetrated."—Salt Lake Herald-Republican.

WILSON OF NYE HAS TROUBLE ON HIS HANDS

ANTI-LOBBYIST BILL AGAIN
SENT BACK TO ENGRASS-
ING CLERKS.

CARSON CITY, Nev., Feb. 10.—Assemblyman Wilson of Nye is having a peck of trouble with his anti-lobbyist bill. A few days ago when the measure came up for third reading preparatory to the final vote being taken, it was sent to the engrossing committee. Yesterday it was reported back and as several clerical errors were observed in the reading of the document, it was referred to the engrossing committee.

The next step in the measure is being awaited with interest by the majority of the members of the assembly, for the appearances so far are such that many believe the measure to be hoodooed.

PATROLMAN IS BOUNCED FROM JOB

OFFICER WHO LOANED GUN TO
SLAYER IS REMOVED FROM
THE SERVICE.

SAN FRANCISCO, Feb. 10.—As a result of the charges filed by Chief of Police Seymour against more than a dozen members of the police department, growing out of the death of Gustav Posler, a contractor, in the Saratoga club, who was shot and killed while attempting to recover his losses at the point of a revolver, Sergeant of Police James Donovan was dismissed from the department yesterday by the police commissioners.

Donovan was tried on charges of neglect of duty and conduct unbecoming an officer, for having loaned his revolver to Edward Kripp, one of the keepers of the club, when the latter informed him that "there was some trouble in the club."

Donovan, it was charged, did not investigate, but loaned his revolver to Kripp. Kripp is at liberty on bond pending preliminary hearing. It being alleged that he shot Posler with the pistol loaned him by Sergeant Donovan.

The chief witness examined by the commission was Paul Postler, the 14-year-old son of the dead contractor, who was present when Kripp asked for and received the revolver from Donovan.

NEVADA LAW- MAKERS WANT CONGRESS ACT

RESOLUTION ASKS PRESIDENT
TO PROTECT FLOW OF LAKE
TAHOE WATERS.

CARSON CITY, Nev., Feb. 10.—One of the last official acts of yesterday in the assembly was the passing of senate joint and concurrent resolution No. 5, introduced in the upper house during the morning session by Senator Dolph.

The resolution asks that the president of the United States aid the state of Nevada in protecting the flow of waters from Lake Tahoe. A resolution of like nature has already been passed by the California legislature, and it is intended to secure what is purported to be an unjust apportionment of the waters of the lake.

It is in protest of this action that Senator Dolph presented his resolution which was rushed through the senate. The assembly, out of courtesy to the upper house, took the matter up out of order, and referred it to the committee of the whole for immediate consideration.

Speaker Pro Tem Booth, who officiated as chairman of the committee, reported back that the committee reported favorably on the measure and recommended that it do pass. An opportunity was given the committee on irrigation to likewise examine the measure and a similar report was rendered. The resolution was then passed by a unanimous vote.

ARIZONA ADOPTS CONSTITUTION

VOTE RUNS FULLY THREE TO
ONE IN FAVOR OF THE
MEASURE.

PHOENIX, Ariz., Feb. 10.—Hopes of the anti-constitutionists that the vote to ratify the constitution would not be more than 60 per cent of the whole, were dashed last night when the returns from the principal towns of nearly all the fourteen counties of the territory indicated a favorable vote that frequently ran as high as 3 to 1.

Only one county voted against the proposed constitution, according to the available returns which are regarded as practically conclusive. This was Apache county in the northeastern portion of the territory. It returned a negative majority of 113.

Pima county, which sent a solid Republican delegation to the constitutional convention and was regarded as a stronghold of the anti-constitutionists, voted overwhelmingly in favor of ratification. Tucson, the largest city of the territory and situated in Pima county, voted 867 for adoption of the constitution and 350 against.

CAR BANDIT GETS A LIFE SENTENCE

LOS ANGELES, Cal., Feb. 10.—Louis Fox, the young bandit who with a companion held up and robbed a Venice suburban car on Jan. 25, pleaded guilty when arraigned for trial and was sentenced to life imprisonment. He was taken to San Quentin last night.

The other bandit, whose name Fox gave as Sam Barron, escaped after the holdup, but was captured yesterday at Willets, Mendocino county.

ENTOMBED BY EXPLOSION IN COAL MINE

AWFUL FATE OF FIFTEEN MEN
IN A COLORADO MINE—RES-
CUE MEN AT WORK.

TRINIDAD, Colo., Feb. 10.—Fifteen miners are entombed and may be dead as the result of an explosion in the Cokedale mine of the Carbon Coal & Coke company, eight miles west of Trinidad. Seventeen men were at the mine at the time of the explosion, but two shot flares escaped.

The force of the explosion, which was distinctly felt at Trinidad, seems to have been greatest in the main stope. Timbers were blown 200 feet from the mouth of the stope. A party of twenty rescuers are working desperately to reach the more remote parts of the mine where the fifteen missing men are supposed to have been working.

The rescue party has penetrated 2000 feet along the stope. At that distance black damp was encountered and helmet men are now making their way through the poisonous gas.

Trained rescue men are being rushed to Cokedale from all parts of the district. The cause of the explosion is unknown.

INDIAN AGAINST INDIAN IN THE MEXICAN RUMPUS

SAN DIEGO, Cal., Feb. 10.—Aside from the disappearance of Governor Vega, the feature yesterday of the Mexican revolutionary situation across the border, according to advices from Campo last night, was the reinforcement of the federalists by forty Abajeno Alamo Indians under Chief Francisco Ser-

TWO CITIZENS CONSTITUTED THE SPOOKS

SOME OF THE MYSTERY OF
LAST WEEK'S SHOW IS
TIPPED OFF.

Arzulla's stunt last week at the Nevada theater of answering questions propounded by the audience while she was in a hypnotic trance, so it was said, was explained today by one of the knowing ones.

Some of the good folk of Tonopah were considerably worked up by this mysterious work. It surely must have been the spirits, some of them said. Occult influences were "something fierce" all week, for questions were answered that the hypnotized lady could not possibly have known anything about. One man, for instance, wanted to know who stole his dog—and so it went.

But the mystery is now all explained. The spirits were Billy W— and Ed W— under the stage, who kept in touch with the hypnotized lady by means of a short telephone line.

The performance drew the money, however, and everybody had some fun out of it. So let it go at that.

HAD A ROW AND BUNCH DISBANDED

ALBURTUS-ARZULLIA COMBINA-
TION DISSOLVES IN GOLD-
FIELD OVER NIGHT.

The Alburts-Arzullia combination, which played here all last week and succeeded in puzzling local audiences more or less, is no more. It broke up in a row, and the company disbanded without completing its engagement at the Goldfield theater. There is but little information as to the causes of the trouble, but it originated between Alburts and Manager Randolph, and is presumed to have been over a division of the proceeds. Anyway, Alburts and Arzullia are going to Los Angeles. Last night they closed in Goldfield.

The brother of Blanche Roberts went over from here today to get his sister. It will be remembered that the young lady left here with the company to do the hypnotic act.

ADVOCATES DESTROYING RENO'S DIVORCE INDUSTRY

The Elko Independent says: The Gazette's Carson correspondent is evidently afraid that the legislature will ruin one of Reno's chief industries, its scandalous divorce business. His frantic efforts to manufacture sentiment against the bills amending the divorce law show that he is on the payroll for a purpose. Reno's divorce mill is a disgrace to the state and the legislature should amend the divorce law that Nevada will cease to be the dumping ground for the rotten rich of the East and West.

NEW AGREEMENT.

HAMBURG, Feb. 10.—After three years' competition with the lines embraced in the Atlantic conference, the ocean steamer company has signed an agreement with the shipping pool through which it will abandon its Mexican ports, and after April 1st ply only between Antwerp and Cuba.

The Daily Bonanza reaches the people.

MONEY TALKS SAYS COMMITTEE

WASHINGTON, Feb. 10.—That the exposition in commemoration of the completion of the Panama canal if held at San Francisco, would be the greatest ever known, is the opinion expressed by the senate committee on industrial exhibitions, in a report expressed to the senate yesterday.

This view is based on the fact that \$17,500,000 has been promised by California for the proposed exhibition. The report makes it plain that the promise of the large sum had much influence in taking the exposition to the Pacific coast.

Other reasons given are: That San Francisco asks no pecuniary aid from the national government; that the location at that point will cause many to travel through the canal; that the trip will be of educational value to the visitors from the east and especially that it would be an encouragement to trade with the orient.

COKE OVENS FIRED.

UNIONTOWN, Pa., Feb. 10.—More than 1100 coke ovens were fired yesterday in the Klondyke and Connellsville coke regions, making a total of 5000, put into operation within ten days. Employment is given to 5000 men.

GONE TO PASTURES ANEW.

Though Goldfield was opposed to it, the bill dividing of Esmeralda county went through the assembly last Monday without even a protest from the big camp. How different it was four years ago, when the Goldfielders swooped down on the capital in force to jam through the legislature the bill removing the county seat from Hawthorne to Goldfield. Paralysis seems to have stricken the much vaunted "Goldfield way" of a few years ago. The old-time boosters must have departed for green fields and pastures new.

GROUND HOGS IN NEVADA; YES, AND COONS, TOO

Editor Humboldt Star: In your issue of last Wednesday the statement is made that there are no ground hogs in this state. This

is a mistake. There are ground hogs in this state, and right here in our county. Come to Unionville next summer—not "ground hog day"—and we'll "show you."

Another animal that many people think has absented himself from the desert wilds of Nevada is the coon. This is another mistake, for we have them here, too; yes, the ring-tailed species. Come in the winter for a coon hunt.

The ground hog has been hunted for years by the Indians in these hills, but the coon is a stranger to him. He doesn't like dog meat. Yours in the interest of truth, etc.,
M. A. LEONARD,
Unionville, Nev., Feb. 6, 1911.

VAUDEVILLE STARS SLATED FOR TONOPAH

A NEW BOOKING MADE BY
MANAGER GOODFRIEND
FOR NEXT WEEK.

In lieu of Baby Josephine next week at the Butler, who is held for another week at the Wigwam, Reno. Manager Goodfriend will present one of the best bookings of the year—Thomas and Ward, in singing and dancing. They are really clever people.

They have covered part of the Western circuit, and wherever they have appeared they have made a hit with the audiences. Their performance is altogether peculiar to themselves—there is nothing like it on the road, and Tonopah theatergoers will enjoy a distinct treat in them. They will be here the entire week.

THE ROOSTER HIKE THROUGH OPEN GATE

If any one runs across a big black Minorca rooster that looks as if he was lost and homesick, they are urged to take him up and return to the Bonanza office. He belongs to the Bonanza editor and cost the editor \$7.50 cash. He is a pure-bred bird such as one reads about, and his return is anxiously awaited. He escaped today when the coal man left the gate of the yard open. If the bird is not returned the coal man pays the freight.

EIGHT HOURS TO CONSTITUTE DAY

NO ORIENTAL LABOR WILL BE
EMPLOYED IN BUILDING
CARSON DAM.

CARSON CITY, Nev., Feb. 10.—Like all other government work, the operations on the Carson dam will be limited to eight hours per day and no Oriental labor will be employed.

This will necessitate the employment of all white labor and the wages to be paid are as follows: Carpenters, 45 cents per hour; teamsters, 28 cents per hour; common laborer, 25 cents per hour.

A mess house is shortly to be established where board will be furnished at 75 cents per day and a bunk house will be erected where accommodations will be furnished free to all government workers.

OPIUM SEIZED.

SAN FRANCISCO, Feb. 10.—Continuing today his search for smuggled opium on the steamer Siberia, Customs Inspector Benninger found \$800 worth of the drug concealed near the vessel's smokestack, making a total seizure of more than \$2000 in value since the Oriental liner docked.

REMARKABLE PETITION.

WASHINGTON, Feb. 10.—A remarkable petition was received yesterday by Postmaster General Hitchcock from citizens of Fairbanks, Alaska, requesting the establishment in that city of a postal savings bank. The petition is twenty-four feet long and bears the names of many hundred citizens of Fairbanks.

A RECESS TO MONDAY.

The county commissioners took a recess last evening until next Monday, when they will finish the session's business.

WANT RELIEF FOR COUNTY FINANCES

COUNTY BOARD ASKED FOR AP-
PROPRIATION TO PAY FOR
DRAWING BILLS.

J. J. McQuillan, representing a citizens' committee of Tonopah, appeared before the county commissioners yesterday afternoon and asked the board to make an appropriation of \$500 for the purpose of having certain bills drawn for introduction in the legislature, looking to the relief of the county in its present straits.

The board turned down the request for the good and sufficient reason that the county didn't have the money. But the discussion which ensued was illuminative as showing the prevailing lack of confidence locally in the bunch of representatives Nye county has at present in the legislature. It was hinted that this money was wanted for this purpose for the single reason that it was felt that if matters were left in the hands of Nye county's legislators nothing whatever would be done. And something must be done.

Nye county today is running behind, to put the matter in cold black and white, something like \$50,000 a year; at least \$35,000 from closing of gambling. Some remedial legislation is needed, and a committee of citizens has been working on an outline of measures deemed necessary. Reno calamity howlers are to blame for the southern country's financial distress, and then they ask the decent people of this state to countenance their divorce harlem.

WOOLEN INDUSTRY.

BOSTON, Feb. 10.—The woolen industry, although still far from flourishing, has improved recently, and in the thirty mills of the American Woolen company in New England about seventy per cent of the machinery is now in operation.

EVIDENTLY NOT SEEKING PUBLICITY

COUNTY BOARD DOES NOT
WANT LITIGATION LIST
TIPPED OFF YET.

District Attorney Sanders, in compliance with the request of the county board, made a few days ago, yesterday afternoon submitted a complete list of such litigation to the board.

It was kept dark, however, and instructions issued that the prying newspaper men were not to get a glimpse of the instrument. Perhaps for the reason that the list is so long, with so blamed little accomplished, that the showing is a bad one for somebody.

Anyway, the Bonanza will not publish the list just now. And for the reason given above.

DR. WICHMANN FOUND GUILTY OF MANSLAUGHTER

RENO, Nev., Feb. 10.—Dr. Frederick Hugo Wichmann was found guilty of manslaughter last night of the charge of murder placed against the physician, and as the result of the death of Mrs. Emma Gillespie Ross, on October 3 last, in Reno.

The evidence disclosed that Wichmann had treated Mrs. Ross and she had given premature birth to an infant, whose body was later burned. A second operation on Mrs. Ross resulted in her death. The trial has lasted seventeen days. Mrs. Ross was a native of Kaufman, Texas, and formerly resided in Los Angeles.

All kinds of ruling and binding at the Bonanza.
